

Breakfast and lunch are served in our school's cafeteria every day.

It is well established that hungry children cannot learn. The goal of the food service department is to serve healthy meals that appeal to students of all ages. The elementary schools, middle school and high school have different menus and choices as students' tastes and food preferences vary greatly with age. In all cases, students are the customers in school food services.

Pendleton County Schools participate in the National School Lunch Program (NSLP), which is a federally assisted meal program operating in public schools. It provides nutritionally balanced lunches to children each school day. The program was established under the National School Lunch Act, signed by President Harry Truman in 1946.

There are major concerns nationwide with the nutritional status of children, and Pendleton County School Food Services continues to try to offer foods that are nutrient rich yet low in fat. Such foods that are traditionally thought of as "junk foods" are really quite nutritious. For example, the pizza used in schools is made with low fat cheese. Chicken nuggets and french fries are oven baked, rather than deep fried.

"We are all in this together – children, parents, relatives, extended families, schools and communities.

Working together, our children can achieve!"
