

Greetings,

Thank you for trusting in me to serve the stakeholders of Sharp Middle School, Pendleton County Schools, and Pendleton County. As we enter a new school year it is important that we remember where we came from as we look forward to where we want to go.

A positive connection between all stakeholders is the foremost priority for us here at Sharp Middle School as we focus on our top priorities; Safety, Social and Emotional Learning, and Communication.

The partnership that we have with all stakeholders as we educate each and every child will be a solid one with respect to all opinions and backgrounds. Sharp Middle School will ensure that every stakeholder realizes the value that is placed on them as individuals and groups.

We are excited for the upcoming school year. Do not hesitate to reach out by phone, email, or in person.
